

Geelong Candlelight Vigil

A forum to honour, learn and support

You are invited to join an important conversation about family violence in our community.

Last year, 4,865 family violence incidents were recorded in Greater Geelong. Over the past 10 years in Australia, an average of one woman a week has been killed in the context of family violence.

Presented by Meli and The Sexual Assault & Family Violence Centre we will hear the brave and personal story of Simone O'Brien, family violence victim and advocate. A panel of expert local speakers will also share how your workforce can learn, navigate and support staff experiencing family violence.

Registrations are essential – book your seat here:
